

ENERGY SAVINGS START WITH THE FRAMING™

Homeowners want lower energy costs, better indoor air quality and improved resale value.

You need solutions that help you meet codes easily while reducing costs and increasing profits.

Like all of West Fraser's products, Stabledge will help you meet all those objectives. With so many benefits for you and the homebuyer, the decision to make the change is an easy one.

ONSITE MAKES OSB AS EASY AS 1-2-3

WESTFRASER.COM/ONSITE

West Fraser is a diversified wood products company with more than 60 facilities in Canada, the United States, the United Kingdom, and Europe. From responsibly sourced and sustainably managed forest resources, the Company produces lumber, engineered wood (OSB, LVL, MDF, plywood, particleboard), and other products including pulp, newsprint, wood chips, and renewable energy.

PRODUCTIVITY RE-FRAMED

THE PREMIUM EDGE IN SUB-FLOORING

LEARN MORE AT WESTFRASER.COM/OSB

It's a challenge to break old habits; but when a product offers so many tangible benefits, the prospect of making a change is made a lot easier. Switching to Stabledge Premium sub-floor allows you to build faster without sacrificing profitability, efficiency, material quality, or construction standards.

LIKE WATER OFF STABLEDGE'S BACK

THE SUB-FLOOR THAT MAKES YOUR JOB EASIER

No matter what the weather throws at you, Stabledge holds the line on edge swell. Our premium Stabledge sub-floor is designed to improve job site productivity by eliminating the need to sand panel joints due to moisture-swollen edges. Include a T&G profile that allows for fast and easy installation and it is no wonder Stabledge is the choice of today's builders.

- Premium engineered sub-floor manufactured for strength, durability and overall performance
- Stabledge joints will not swell or require sanding
- Comes with a 50-year no-sand guarantee and a 50-year limited warranty
- T&G profile allows for fast and easy installation. Sheets lay flat and stay flat without buckling or warping
- Strong, dimensionally stable sub-floor that is consistent from panel to panel
- Meets or exceeds PS 2 standards
