

West Fraser

**BUILD BETTER
FROM THE
INSIDE OUT**

CUSTOM PRODUCTS FOR MULTIPLE APPLICATIONS

West Fraser manufactures engineered wood products serving a range of industrial purposes and performance requirements. Some customers seek panels with superior core strength and uniform density. Others demand a panel that lays flat and remains rigid. Whatever the need, West Fraser applies industry-leading technology to manufacture panels to exacting specifications. Using the latest in strand & resin technology and continuous press mill capabilities, we have the flexibility to customize specific properties, lengths, widths, thicknesses and surface characteristics.

A TEAM DEDICATED TO DELIVERING ON YOUR SPECIFICATIONS

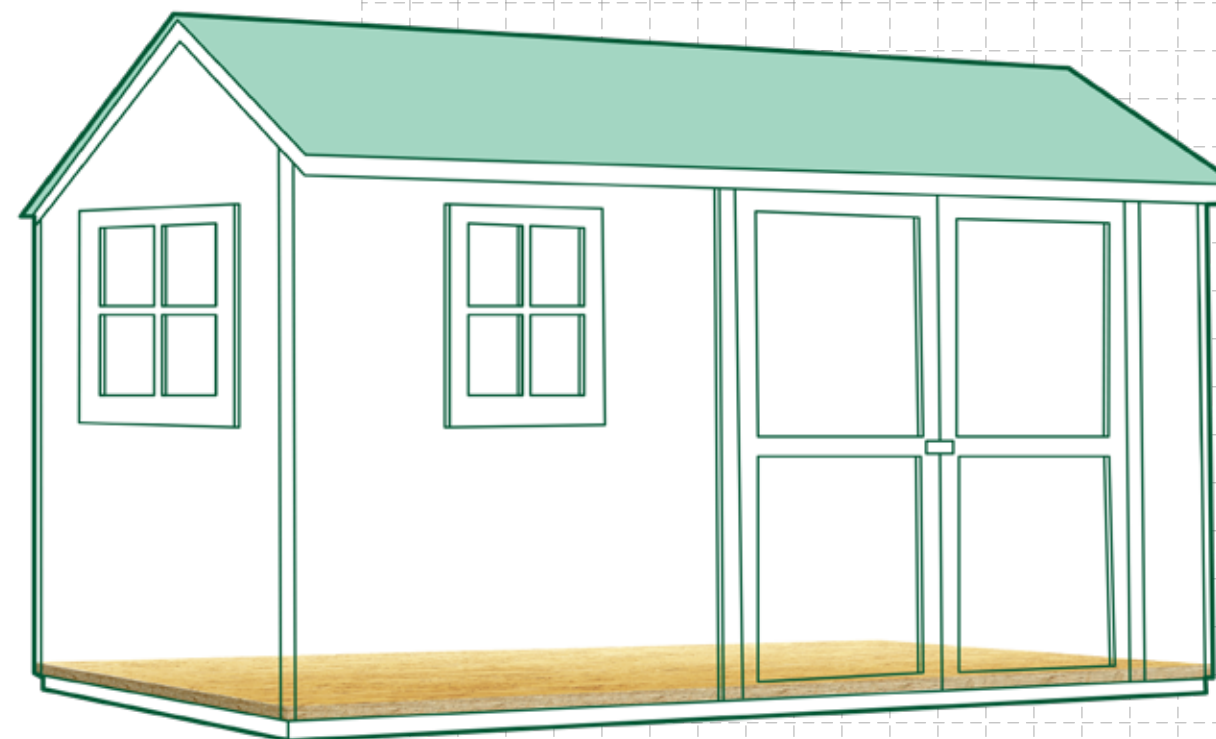

The West Fraser Solutions Team is dedicated to understanding and delivering on diverse customer needs. They develop value engineered solutions designed to save time, waste and money while improving processes. Our Industrial Solutions Team is ready to listen, innovate and deliver on your needs.

BENEFITS OF A PARTNERSHIP WITH WEST FRASER:

- Access to the latest in advanced strand & resin technology.
- Dedicated product engineering and testing facility.
- Largest manufacturing capacity in North America with press flexibility.
- Dedicated sales support and customer service.
- Logistics and supply chain excellence.
- Committed industrial solutions and technology team.

LEARN MORE

West Fraser is a diversified wood products company with more than 60 facilities in Canada, the United States, the United Kingdom, and Europe. From responsibly sourced and sustainably managed forest resources, the Company produces lumber, engineered wood (OSB, LVL, MDF, plywood, particleboard), and other products including pulp, newsprint, wood chips, and renewable energy. West Fraser's products are used in home construction, repair and remodeling, industrial applications, papers, tissue and box materials.
